Soft Punch Application Review

Complete this form to help Canopy evaluate product and blade fit.

1. Company and contact

Company

Contact name

Email

Phone

Project / application

2. Material information

Material type / description

Trade name / supplier

Thickness

Units

Number of layers

Reinforcement / embedded features

Material characteristics (check all that apply)

- [ ] Flexible film
- [ ] Multilayer
- [ ] Reinforced
- [ ] Unknown

3. Hole and cut requirement

Target diameter (in)

Target diameter (mm)

Tolerance / acceptable range

Hole shape (if not circular)

Holes per part

Expected cuts per day

Acceptable cut quality / critical edge requirements

Current cutting method and problem to solve

Soft Punch Application Review

Application environment, sample testing, and submission details.

4. Use environment and process

Operating environment (check all that apply)

- ☐ General production
- ☐ Controlled area
- ☐ Lab / R&D
- ☐ Other

Environment details or restrictions

Operator / workstation constraints

5. Sample-testing request

Representative material sample available?

- ☐ Yes
- ☐ No
- ☐ To be confirmed

Sample quantity / size available

Requested completion date

Special handling, return, or confidentiality instructions

6. Additional notes

Application note

Material suitability and blade life are application-dependent. Sample testing confirms only the material and configuration evaluated. Pricing, lead time, warranty, and returns are governed by the formal quotation and Canopy's Terms and Conditions.
